**Highest Recommendation**

Rated five stars in 2005. Crystalline appearance; sediment free. I have always regarded Citadelle's opening bouquet of summer garden and stone quarry to be one of the best gin introductions around and after nine years I feel equally strong about it; later whiffs detect a laundry list of impressions, from silk to orris to angelica to pine needle to tangerine. Entry is harmonious, integrated, piquant, overflowing with dried flowers, dried fruits, lime peel; midpalate reinforces the entry impressions by adding juniper/cedar, tangerine, kiwi, rose petal. Simply, one of the world's great gins.
